Cyber-Physical Systems
Summer Intensive Research Internship
Creating Technology to Help People

May 28–July 28
Summer 2024

Applications
Open: December 8, 2023
Deadline: February 9, 2024

Get information and apply here:

Program Description

What
• Introduces students to cyber-physical systems (CPS)
• Promote inclusive academic research environments in CPS
• Encourage student participation in graduate programs or employment in CPS-related fields

Who
• Sophomores, juniors, and seniors interested in CPS-related fields and in diversity & inclusivity
• Underrepresented students are particularly encouraged to apply

Where
• Students will conduct research in pairs at Purdue University

Why
• Develop basic research skills
• Obtain exposure to state-of-the-art research and engineering facilities
• Acquire preparation for graduate school
• Learn about professional and research opportunities in CPS

Projects
• Learning for control for autonomous systems
• Measuring human trust in autonomous systems
• Deep learning for robotic navigation
• Psychophysiological sensing of human workload and attention
• Improving self-driving cars for older adults

Fields of Study
• Computer Science
• Mathematics
• Statistics
• Electrical Engineering
• Mechanical Engineering
• Aerospace Engineering
• Computer Engineering
